

# Careers in manufacturing: recreational vehicles

## Manufacturing

Recreational vehicle manufacturing covers the construction and assembly of caravans, motorhomes, camper trailers and their derivatives.

This may include special/custom orders or standard manufacturer models. They may also specify and access outside specialist services, for example, for spray painting or license requirements.

Manufacturing occupations within the recreational vehicles sector include:

- Recreational vehicle production worker
- Recreational vehicle manufacturing supervisor
- Recreational vehicles manufacturing and maintenance manager.

### Recreational vehicle production worker

Recreational vehicle production workers work under supervision manufacturing motor homes, caravans, camper trailers, slide-ons, fifth wheelers and their derivatives.

#### **Relevant qualifications:**

- Certificate II in Recreational Vehicle Manufacture
- Certificate III in Recreational Vehicle Manufacture

### Recreational vehicle manufacturing supervisor

Recreational vehicle manufacturing supervisors lead work teams and provide supervision of people undertaking the manufacture of recreational vehicles, including motor homes, caravans, camper trailers, slide-ons, fifth wheelers and their derivatives.

#### **Relevant qualification:**

- Certificate IV in Recreational Vehicles

### Recreational vehicles manufacturing and maintenance manager

Recreational vehicles manufacturing and maintenance managers work in a service and repair facility or a manufacturers' factory managing departments or entire enterprises that undertake the manufacture, service and repair of recreational vehicles. They may facilitate the development of a new product, develop and monitor quality systems or develop and document specifications and procedures.

#### **Relevant qualification:**

- Diploma of Recreational Vehicles
